this book provides a general theory of democratic inclusion for the present world it presents an original contribution to our understanding of the democratic ideal by explaining how democratic inclusion can apply to individuals in a variety of contexts the workplace social clubs religious institutions the family and of course the state the book explores the problem of democratic inclusion what it means to be subject to de facto authority how this conception translates into legal systems and the relationship between territorial claims by the state and law s claim to legitimate authority the volume will be of interest to scholars and researchers of politics especially political theory and democracy

this authoritative collection of the seminal texts in post war political philosophy has now been updated and expanded reprints key articles mainly unabridged touching upon the nature of the state democracy justice rights liberty equality and oppression includes work from politics law and economics as well as from continental and analytic philosophy now includes thirteen additional texts taking account of recent developments in the field and reflecting the most pressing concerns in international affairs can be used alongside a companion to contemporary political philosophy blackwell publishing 1993 second edition in preparation as the basis for a systematic introduction to the subject

tracing practical reason from its origins to its modern and contemporary permutations the greek discovery of practical reason as the skilled performance of strategic thinking in public and private affairs was an intellectual breakthrough that remains both a feature of and a bug in our modern world countering arguments that rational choice making is a contingent product of modernity the greeks and the rational traces the long history of theorizing rationality back to ancient greece in this book josiah ober explores how ancient greek sophists historians and philosophers developed sophisticated and systematic ideas about practical reason at the same time they recognized its limits that not every decision can be reduced to mechanistic calculations of optimal outcomes ober finds contemporary echoes of this tradition in the application of game theory to political science economics and business management the greeks and the rational offers a striking revisionist history with widespread implications for the study of ancient greek civilization the history of thought and human rationality itself

this book presents in translation 175 of the most revealingdocuments that have survived on stone and papyrus from thehellenistic period presents over 150 sources in translation captures the political social economic and religious dynamismof the hellenistic kingdoms and cities covers the entire hellenistic world with extensive coverage ofthe ptolemaic kingdom

here in a major addition to american studies and the first book length philosophical treatment of du bois s thought robert gooding williams examines the conceptual foundations of du bois s interpretation of black politics

looks at the political and constitutional history of the united states
